LOCAL-LEVEL POLITICAL ENGAGEMENT

Creating Impact at the Precinct in 2010 and Beyond

WE ARE IN AN EPIC BATTLE FOR SURVIVAL. OUR GOD-GIVEN RIGHTS, the Rule of Law, respect for the Constitution, belief in Limited Government and belief in Individual Responsibility are becoming more meaningless and insignificant everyday Congress meets. With their Socialist-Marxist agenda, liberal-Democrats are bound and determined to transform our nation into a carbon-copy of the oppressive government from which we obtained our independence.

While the Tea Party Movement has awakened the silent majority and motivated millions of Americans to become actively involved in the legislative process, tea party rallies have evolved into a proverbial case of “singing to the choir”. So, what do we do? What is the next step?

The ConservativeMESSENGER has developed a high-caliber and life-changing strategy to help conservatives tackle their biggest political challenge—engaging at the local level. It is called the Frederick Douglass Republican™ Methodology.

This and high impact presentation, K. Carl inspires conservatives to stretch beyond their political comfort zone. He will empower you with skills and tools needed to engage at the local level—profoundly changing the political landscape of America.

KCarl will provide a practical blueprint to help you employ the Frederick Douglass Republican™ Methodology—a powerful approach for engaging at the local-level.
